Commitment to Environmental Safety

Kornit's Dedication to Green Ideology – Adopting the most stringent standards

As a leading international company for digital ink development we, at Kornit Digital, adopt the most stringent standards for protecting both human health and the environment. Our unique chemical solution not only guarantees environmental safety but conserves natural resources. Our goal is to create a new standard for environmental safety in the textile printing industry.

Oeko-Tex Standard 100 Approval – For Children's Apparel

Kornit's water-based pigment inks are absolutely free of heavy-metals, formaldehyde and alkyl phenol ethoxyles (APE). We ensure that Allegro inks meet the industry's established international standards for children's garments and apparel.

GOTSV3 Approval – Biodegradable and Consumer-Healthy Inks

The GOTS standard certification guarantees that our inks are environmentally-friendly, biodegradable and consumer-healthy, all the way from development through distribution. Kornit's inks are your best choice for printing on organic fabrics.
